

# Optional Accident Coverage

November 2020

There are a number of Licensed Practical Nurses (LPNs) working independently or in private practice that don't have any accident coverage for serious incidents. Lloyd Sadd has arranged through Berkley Canada to provide a coverage option that offers you and your loved ones coverage if you are involved in a serious accident. With this program, there are additional paid expenses available for your dependents including: grief counselling, funeral expenses, higher education benefits for dependent children, daycare benefits and parental care benefits. This insurance program will come secondary to any pre-existing primary health care coverage. Please contact us for further information if you are interested.

## Voluntary Plan

(LPNs have the option to purchase through Lloyd Sadd)

Principal Sum Benefit	Annual Premium per Member
\$50,000	\$36.00
\$100,000	\$72.00
\$250,000	\$180.00

## Service Team

**Erin Hudson**
